# MEDIA DIALOGUE: Satisfaction Survey

## What would you suggest we do to improve the content or approach?

Be sending presentations on personal emails for reference
By sending us all the resources or notice so that we are able to use in future
Content good enough
Focus on how to persuade and mobilize the public
Have all African countries involved in the discussions so that the information can be relevant in every context
I would suggest you send us the content before Media dialogue begins.
Increase the time for questions & answers session
more time
Need more questions and answers on media dialogues
providing modules and also physical attendance of the class
So far so good, I am glad I am learning more on RCCE
Well structured answers for future reference

## What concerns on COVID 19 are you hearing from your audience?

Concerns on effectiveness of vaccines against new variants
COVID 19 is real
Covid-19 Jobs
How safe and reliable the vaccine is
Ignorance from Politicians is a huge concern
ignorance of Covid-19 protocols by leaders
Issues to do with vaccines and their safety
Some people do not follow preventive measures against COVID-19.
The audience want a COVID 19 vaccines all citizens of the country
The concerns on the feasibility of the COVID-19 vaccine
They are not ready for vaccines
Vaccinations misinformations
We are at least served by this radio station with accurate information. I also found some buckets with soap and water at every shop in the market. this is after the radio disseminated the message

## Which of the following topics would you like us to address in future media dialogues?
